

Instructions for disclosing public explanations and corrective actions regarding environmental supervision records via the Blue Map Database

公众环境研究中心
Institute of Public & Environmental Affairs

The Blue Map Database collects and collates pollution-source environmental and safety supervision records, government requirement for rectification, online monitoring, limited production, supervision, enterprise accidents and other data disclosed by government departments.

Enterprises can use the the Blue Map Database to:

1. [Disclose public explanations and follow-up corrective actions regarding **environmental supervision records** \(click to view instructions\)](#)
2. [View documents that have been publicly disclosed \(click to view instructions\)](#)
